*Review: This, combined with Stephen Shores similar-but-complimentary *The Nature of Photographs* would be a good bibliography for a beginners class on photography - in which the students must use a fully-automatic camera - maybe a smartphone? These two books complement each other - makes sense, IIRC Szarkowski was some kind of mentor to Shore. Also they complement...*

Description: The Photographers Eye by John Szarkowski is a twentieth-century classic—an indispensable introduction to the visual language of photography. Based on a landmark exhibition at The Museum of Modern Art in 1964, and originally published in 1966, the book has long been out of print. It is now available again to a new generation of photographers and lovers...
